## Progress Report

### Children's Service's Plan

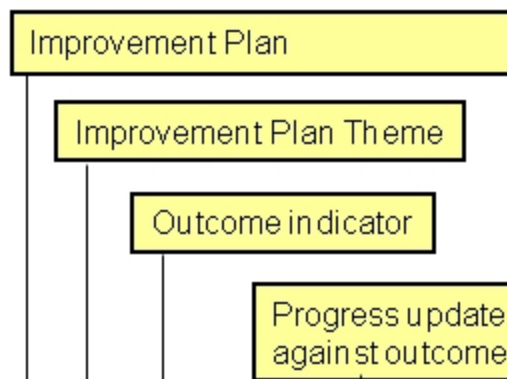

Quarter 4 - 2017-18

# getting it right

for every child  
in South Lanarkshire

## How to use this performance report

This performance report is intended to be both informative and easy to use. The guide below is designed to help you get the most out of the report and to answer the most common questions you might have.

Measure Status – are we on course to achieve?  
The "traffic light" codes are:

- Green Achieved, or due to achieve with no issues
- Amber There may be problems or minor slippage
- Red Not on course, major slippage anticipated

Measures which are to be reported later or which are "for information only" are not colour coded

Community Planning Partnership - SOA 2013-2023

Tackling Poverty									
Medium to Long Term Outcomes (Priority Outcomes)									
Outcome Indicator	Comments	Status	--- BASELINE ---		--- LATEST ---		----- TARGETS		
			Data	Period	Data	Period	Annual	Med (3 yr)	Long (10 yr)
REDUCE gender pay gap (three year average)	This measure has not been amended since 2010 as updated statistics are not yet available from the original sources, Scottish Neighbourhood Statistics (SNS).	Report Later	11.0%	2010	11.0%	2010	N/A	Reduce to at least 7%	Reduce to below Scottish average
REDUCE % of the population who are income deprived.	Statistics not available until the next Scottish Index of Multiple Deprivation (SIMD) (2015) - results from the SIMD 2015 will be available from August 2016.	Report Later	14.0%	2012	14.0%	2012	N/A	Reduce South Lanarkshire percentage to 12%	Reduce South Lanarkshire percentage to 10%
REDUCE % of the population aged 16 to 64 years old in receipt of out of work benefits.	Target achieved. Percentage of the 16-64 population in South Lanarkshire in receipt of DWP Out-of-Work benefits is 11.7% at May 2015 - 1.3% below the medium term target of 13%.  Ongoing effective partnership activity to support residents into employment particularly the young and those with significant barriers is contributing to this outcome.	Green	14.9%	2012	11.7%	2015	N/A	Reduce South Lanarkshire percentage to 13%	Maintain at or below the Scottish average
REDUCE % of population with low/no qualifications	No update of this information available from the original source (Scottish Neighbourhood Statistics) from 2013.	Report Later	14.7%	2010	13.1%	2013	N/A	Reduce to 13%	Reduce to 10%

## THEME 1: Prevention and early support - Children have the best start in life and are supported to realise their potential

Measure/Actions (Actions shaded Grey)	Comments	Status	--- LATEST ---			--- TARGETS ---		
			Baseline	Data	Period	Short (1 yr)	Med (3 yr)	Long (10)
Literacy of children and young people within the most deprived communities	<p>Produce a change package supported by PEF for literacy in primary schools and test in school establishments</p> <p>A robust training programme promoting active literacy, has been established as part of South Lanarkshire's Literacy Strategy. As a pilot 18 schools participated this session (2017/2018), to receive intensive training and support. Their progress is being monitored and evaluated to help inform next steps.</p> <p>A training programme has been offered to all primary schools and Education Resources has worked in partnership with 'Catch Up Literacy', (a literacy intervention programme) to support pupils experiencing difficulties with aspects of literacy. To date, approximately 78 staff have been trained across 26 establishments.</p> <p>Education Resources, working in partnership with Catch Up, has provided 'Train the Trainer' training for 2 members of staff (one in Catch Up Numeracy and one in Literacy). This means that SLC staff are the first accredited Catch Up Trainers in Scotland.</p> <ul style="list-style-type: none"> <li>•588 staff trained by Term 3 – 298 out-with Phase 1</li> <li>•A Glow Site has been established to support staff who have attended training</li> <li>•Currently 567 teachers using the Glow site support</li> </ul> <p>An authority-wide report will be compiled based on individual case studies of each of the eighteen schools.</p> <p>Each school case study draws from information gathered on progress, pupil data and practitioner feedback as outlined below:</p>	Green	---	---	---	---	---	---
Support vulnerable children to participate in targeted transition programmes	<p>There are well-planned programmes of transition arrangements in place across all learning communities to support vulnerable pupils with transition from Primary to Secondary school.</p> <p>Schools plan and work with partners and other agencies to ensure transition arrangements are effective for pupils including those who require additional support. Transition support also focuses on pupils learning progress and their needs are taken into account throughout the transition.</p>	Green	---	---	---	---	---	---

Measure/Actions (Actions shaded Grey)	Comments	Status	Baseline	--- LATEST ---		--- TARGETS ---		
				Data	Period	Short (1 yr)	Med (3 yr)	Long (10)
Employability of Young people within most deprived communities	Deliver a range of supports and tracking systems to identify those who require additional help early and offer the required multi-agency support to young people and their families	Green	---	---	---	---	---	---
	<p>The Aspire programme provides bespoke support to vulnerable young people in their last six months of school, or who are recent leavers.</p> <p>Previously targeted supports were only available to the Data Zone areas which included six of the secondary establishments, due to restrictions of ESF funding. A revised structure and changes to the funding criteria now allow the offer of identified services to all secondary establishments and all young people identified as requiring support to enter and sustain a positive destination until the age of 19.</p> <p>All young people recording a negative destination will be offered a bespoke support package. Where this was not possible there is an on-going tracking and review process of each individuals needs and an offer of employability support when the time is right.</p>							
Children's exposure to second hand smoke in pregnancy and early childhood	Deliver brief interventions in early childhood and monitor numbers delivered	Green	---	---	---	---	---	---
	<p>An initial pilot for Health Visitors in East Kilbride delivered brief interventions at the 0-6 week assessment. 43% (256) of reviews had Health Visitors provide a brief intervention support on smoking and exposure to second hand smoke between March 2017 and February 2018.</p> <p>However during the period above only 21/54 38% children with parents as smokers were recorded as exposed to Second Hand Smoke.</p> <p>There is data evidence during measured improvement work to evidence this is decreasing overtime.</p> <p>Evidence to show the reduction in exposure to second hand smoke has been confirmed by focus group work with parents in the localities.</p> <p>In year 2, this work will now expand to all localities and agencies and will continue with a wide range of partners including the third sector to develop, initiate and implement a range of programmes to engage with parents/carers and children to raise awareness of the health risks of smoking and second hand smoke.</p>

	<p>Percentage reduction in the gap for destination outcomes for care experienced young people (linked to national average)</p> <p>The gap between care leavers in a positive destination and the South Lanarkshire cohort as a whole has reduced by 7.86% since 2016. The gap in 2016 was 15.92% (Sco 19.71%) and in 2017 the gap was 8.06% (Sco 17.36%)</p> <p>The percentage of young people from the whole cohort entered a positive destination was 95.8% for South Lanarkshire (above the national average of 93.7%)</p> <p>Within this cohort there were 37 care experienced young people (1.1% of total population).</p> <p>33 of the care experienced young people were recorded in a positive destination during the snapshot. (89.2%, no national average available at this point)</p> <p>This is a good outcome for care experience young people and work continues to support them to sustain a positive destination.</p>	Green		7.9%	2017			
	<p>Percentage referrals to the Reporter for failure to attend school without reasonable excuse</p> <p>10.3% of referrals in 2017/18 were based on not attending school (114 of 1108 referrals) SCRA.</p>	Amber	9.3	10.3%	2017	8	7.5	
Support to children and young people with Additional Support Needs	<p>Develop in collaboration with partner agencies effective interventions to promote better outcomes for children who are autistic and their families</p> <p>Autistic children with a demand avoidant profile make up 1% of the autistic community. They have a disproportionate impact on the provision of support and effective interventions within establishments. Guidance is required to support schools with this small group of children to meet their needs in all sectors.</p> <p>A short life working group of practitioners across agencies and stakeholders will draw up guidance on good practice with regard to PDA and publish and distribute this to establishments.</p> <p>Follow up activity will include inset briefings to model good practice and case studies in supporting children with demand avoidant profiles.</p>	Green	---	---	---	---	---	---
	<p>Guidance for schools are in place on how best to engage autistic children with a demand avoidant profile</p> <p>The new Framework for the Education of Pupils who have Autism, Spectrum Disorder is now in place in all establishments.</p>	Green	---	---	---	---	---	---

## Community Planning Partnership - Education Children's Service's Plan

### THEME 3: Vulnerable groups and keeping children safe - The life chances of our children with additional support needs and our most vulnerable children and young people are improved

Measure/Actions (Actions shaded Grey)	Comments	Status	--- LATEST ---			--- TARGETS ---			
			Baseline	Data	Period	Short (1 yr)	Med (3 yr)	Long (10)	
	Put in place guidance for schools and establishments on how best to support all children with ASN through staged intervention, assessment and planning with parents, children and partners	The Framework for Inclusion and Equality holds most recent guidance on meeting the needs of children with additional support needs. This has recently been published and distributed to schools, establishments, partner agencies and stakeholders.  Briefings and inset sessions planned through 2018 will support staff on how to manage the staged intervention process in order to reduce the instances of persistent non-attendance for vulnerable pupils.	Green	---	---	---	---	---	---
Repeat referrals to SCRA	All establishments implement attendance policy/procedures	The staged intervention guidance recently published by Inclusive Education Service contains information on supporting attendance. The Framework for Inclusion and Equality practice guide on staged intervention has been distributed through schools. Briefings and inset sessions will follow through 2018 on how to manage the staged intervention process, in order to reduce the instances of persistent non-attendance for vulnerable pupils.	Green	---	---	---	---	---	---
	Deliver Early and Effective Intervention (EEI) model (Getting it Right for Young People who Offend) in all localities	Early and Effective Intervention(EEI) training has been carried out in all localities during the first week in April 2018. EEI guidance and procedures are now written and made available to partners.  In year 2 focus will be on developing a consistent EEI practice model co-ordinated in each locality agreed with partners.	Green	---	---	---	---	---	---
Impact of parental substance misuse on children and young people	All pregnant substance misusing women are supported by the locality Early Years Multi-Agency Forums (EYMAF)	A review of the Early Years Multi Agency Support Forum process is being included in a multiagency group led by Public Health relating to support for women and families involved with the Parenting Assessment Capacity Team (PACT). A half day process mapping session has been arranged to review key aspects of the work.  The review will also consider the development and function of a woman's plan.  Partners will implement recommendations in year 2 to ensure a consistent application of practice and support.	Green	---	---	---	---	---	---

### THEME 3: Vulnerable groups and keeping children safe - The life chances of our children with additional support needs and our most vulnerable children and young people are improved

Measure/Actions (Actions shaded Grey)	Comments	Status	--- LATEST ---			--- TARGETS ---		
			Baseline	Data	Period	Short (1 yr)	Med (3 yr)	Long (10)
Improve the collaborative approach across the partnership to tackle substance misuse issues for those at risk of child protection registration	<p>Partners continue to work together as part of the Substance Misuse Strategic Sub Group to develop strategies to support children and young people at risk because of substance misuse. An action plan is in place for the Substance Misuse Group and closer links are required to be established with the Children's Services Plan governance.</p> <p>In relation to wellbeing assessments for parents and carers regarding substance misuse issues, a working group is looking at improving staff practice in conducting assessments and also establishing a baseline figure.</p>	Amber	---	---	---	---	---	---
Put in place women's support plans	<p>At the moment there is not a robust system to measure how many plans are in place.</p> <p>The target is for 100% of women who substance misuse and are supported by EYMAS to have a plan in place.</p> <p>Work to ensure plans are put in place is still to be progressed and will be included in a review of the EYMAS structure. This will focus on current processes, referral pathways and the recording and reporting of data.</p>	Amber	---	---	---	---	---	---
Impact of domestic abuse in children and young people	Implement the actions contained within South Lanarkshire's Gender Based Violence Partnership Strategy 2016 – 19	Green	---	---	---	---	---	---

### THEME 3: Vulnerable groups and keeping children safe - The life chances of our children with additional support needs and our most vulnerable children and young people are improved

Measure/Actions (Actions shaded Grey)	Comments	Status	--- LATEST ---			--- TARGETS ---		
			Baseline	Data	Period	Short (1 yr)	Med (3 yr)	Long (10)
Employability of care experienced young people	Increase percentage of care experienced young people achieving a positive destination at initial survey	Green	---	---	---	---	---	---
	<p>Regular reports regarding Youth Employability are provided to the Children's Services Strategy Group and the Children's Services Partnership Board.</p> <p>Additionally a report was provided to the Education Resources Committee in April this year reflecting work and progress over the last 12 months.</p> <p>Care experienced young people are not a homogenous group; they are individuals with their own personalities, needs, experiences and aspirations. What they have in common is that life has not been easy for them and many of these young people experience difficulties during their school years which can lead to challenges in making an effective transition from school to a positive post-school destination.</p> <p>Further improvements will be developed in support to care experienced young people as they are less likely than their peers to go on to further or higher education, training or to find employment and the outcomes for this group have shown slower improvement.</p>							
	Refresh the multi-agency tracking group to include NHS Lanarkshire	Green	---	---	---	---	---	---
	<p>The multi-agency tracking group has met regularly and all care experienced young people are tracked and offered bespoke employability packages to meet their individual needs.</p> <p>Links are in place with Health staff to support specific needs of young people through the implementation of their 'Child's Plan'.</p> <p>The tracking group work to ensure that every care experienced young person has an individualised employability support package with regular monitoring and alterations to support as required.</p> <p>Work continues to try and identify Modern Apprenticeships and full time employment opportunities within the Council when this meets the needs of the young person.</p> <p>Reasonable progress has been made and areas for improvement have been identified e.g. partners will look to establish a recording template to extrapolate data and identify any gaps.</p>

### THEME 3: Vulnerable groups and keeping children safe - The life chances of our children with additional support needs and our most vulnerable children and young people are improved

Measure/Actions (Actions shaded Grey)	Comments	Status	--- LATEST ---			--- TARGETS ---			
			Baseline	Data	Period	Short (1 yr)	Med (3 yr)	Long (10)	
	Widen the tracking group remit to include all care experienced young people and those in the Youth Justice System	There has been an expansion of the tracking group to include all looked after at home young people as well as those looked after away from home. The group also tracks young people involved with Youth Justice services as an integral part of the activity.  A robust referral and tracking link is in place across all youth justice meetings and a dedicated team leader from Youth Employability is linked to all meetings to address all referrals.  Moving forward work will be developed to streamline the referral pathway and ensure bespoke packages of employability support is available for all targeted young people.	Green	---	---	---	---	---	---
Attendance at school for care experienced children and young people	All education establishments prioritise attendance tracking of pupils who are looked after at home	All schools have been informed of the Inclusive Education Service briefing on the requirement to support Looked after children with regards to promoting full attendance.  Updated policy "Included, Engaged and Involved" is published and in-service sessions developed on practical ways to promote attendance for looked after children.  Year two action will be to complete and publish a new operating procedure by August 2018 and follow through with briefings to designated managers within schools through Autumn 2018.	Amber	---	---	---	---	---	---
	Establish a care plan for those pupils looked after at home who require support to improve attendance	All looked after at home pupils where attendance has been highlighted as an issue are supported by key staff (social worker and pupil support) through a plan to improve attendance. (Looked after at home pupils have improved attendance with fewer meetings taking place).  In year 2 partners will further implement the work to establish care plans for children and young people looked after at home.	Green	---	---	---	---	---	---
